* and **

* Comment. Including the 106 boxcarloads which are reported to have been conveyed in November 1951, a total of 1,805 boxcars with Soviet supplies were handled in November as compared with a total of 1,743 boxcars in December 1951. These two totals are nearly equal in number and indicate a daily average of 58 boxcars with Soviet supplies which can be considered normal.
